## What people are saying about Business at the Speed of NOW

"Practical. Useful. Inspiring. Managers and leaders who want to engage the hearts and minds of every employee will find all the tools they need in the pages of Business at the Speed of Now." – *Marshall Goldsmith*

(Million-selling author of the New York Times bestsellers, "MOJO" and "What Got You Here Won't Get You There")

"Mr. Bernard's book achieves something important that I have not seen done before. He shows how social media and cloud computing are resetting customer expectations. Then he makes clear why management must now apply process thinking to the process of management itself. To meet individual customer needs, management must have in place everything employees need to meet customer needs in real time." – *Richard Walje*
